

Statement of Attainment in Pet Nutrition & Enrichment

Recognition of Prior Learning (RPL)

900-82707

Step into the world of animal care with Hanrob College, your premier choice for the graduate pathway from the Mars Petcare College 4 Module program

Course Description:

Embark on an exceptional learning journey with the Mars Petcare College 4 Modules program and then gain a Statement of Attainment through the Recognition of Prior Learning (RPL) pathway.

Showcase your skills and knowledge in animal care by creating a detailed portfolio of evidence.

Also, this pathway not only leads to accreditation, but sets the stage for advancing to the ACM30122 – Certificate III in Animal Care Services and beyond.

Why Hanrob College?

Here's why choosing Hanrob College is your key to success:

- 1. National Reach:** Hanrob College stands out as a national educational institution, providing accessibility and convenience to students across the country. Wherever you are, our courses are designed to reach you.
- 2. Industry-Leading Team:** What sets Hanrob College apart is our super-friendly team with an extensive wealth of experience in the pet industry. Our experts bring real-world knowledge to the table, ensuring you have access to the best in the field.

Entry Requirements

Before enrolling, meet these prerequisites to set yourself up for success:

- 1. Active Industry Engagement:** We require students to be actively employed in the pet care industry, working directly with animals.
- 2. Exclusive Program:** Successful completion of the Mars Petcare College 4-module program lays a strong foundation for your journey ahead in the petcare industry.

Ready to Enrol?

If you have completed the Mars Petcare College 4 Module program and can answer "yes" to the following questions and provide evidence, you're ready to take the next step:

1. Understanding Behaviour: Describe natural behaviour patterns for at least two different animal species.

2. Industry Fluency: Seamlessly use industry terminology when documenting observed behaviour.

3. Stress Identification: Pinpoint signs of stress and determine potential stressors in animals.

4. Expertise Showcase:

a) Demonstrate your expertise in managing maladaptive behaviours and implementing thorough enrichment programs.

b) For at least three animals with diverse dietary needs, showcase your prowess in calculating and preparing diets, ensuring proper distribution, and adhering to workplace hygiene practices.

Our learning platform guides you through meeting the requirements above in simple step by step sections and our team are always on hand to help you with any queries or assistance you need.

Embark on your journey with Hanrob College Online Learning Platform and unlock the door to a rewarding career in animal care. Enrol today to experience a flexible, self-paced, supported six-month program that equips you with essential competencies in providing nutritional requirements and enrichment for animals.

Course Outcome:
